## **Congratulations on taking the first step to achieving success!!**

### **Why I wrote and compiled this ebook.....**

Because I know how you feel. The burning desire for success and the determination to achieve it. The rich knowledge and resources provided in this ebook have been read personally by me, and I have benefited from them. Please take note, all the authors in the ebook don't have to be introduced anymore as I assumed, you will already have heard of them. If you do not know about them yet, just type their name at the search engine and you will find them.

It is very important to me, only to promote authors and coaches whom I know from personal experience are successful and inspirational. There are people who simply promote programs/products for the sake of making money, which in my opinion; should not be that way.

Sell something in which you believe or something you have benefited from yourself and you will be a very successful person. I always prefer to promote the products/services that I have used, reviewed, joined or read before.

We live in abundance of wealth today. There is no limit to our earnings; we have the capacity to earn extraordinary income if we are determined to achieve it. What is most important is how we deliver our own self to others. If we give in our capability, 'it' will come back to us. This is the law of Universal Abundance that I have learned throughout my years.

That is why this I compiled this ebook. It can be distribute for FREE (at the moment), because I have to admit, it's not been completed, yet. # Anthony Robbins

I believe life is constantly testing us for our level of commitment, and life's greatest rewards are reserved for those who demonstrate a never-ending commitment to act until they achieve. This level of resolve can move mountains, but it must be constant and consistent. As simplistic as this may sound, it is still the common denominator separating those who live their dreams from those who live in regret.

*Anthony Robbins*

I've come to believe that all my past failure and frustration were actually laying the foundation for the understandings that have created the new level of living I now enjoy.

*Anthony Robbins*

The path to success is to take massive, determined action.

*Anthony Robbins*

It is not what we get. But who we become, what we contribute... that gives meaning to our lives.

*Anthony Robbins*

Most people have no idea of the giant capacity we can immediately command when we focus all of our resources on mastering a single area of our lives.

*Anthony Robbins*

Once you have mastered time, you will understand how true it is that most people overestimate what they can accomplish in a year - and underestimate what they can achieve in a decade!

*Anthony Robbins*

The path to success is to take massive, determined action.

*Anthony Robbins*

You see, in life, lots of people know what to do, but few people actually do what they know. Knowing is not enough! You must take action.

*Anthony Robbins*

Action is the foundational key to all success.

*Anthony Robbins*

I've come to believe that all my past failure and frustrations were actually laying the foundation for the understandings that have created the new level of living I now enjoy.

*Anthony Robbins*

It's not what's happening to you now or what has happened in your past that determines who you become. Rather, it's your decisions about what to focus on, what things mean to you, and what you're going to do about them that will determine your ultimate destiny.

*Anthony Robbins*

Put yourself in a state of mind where you say to yourself, 'Here is an opportunity for you to celebrate like never before, my own power, my own ability to get myself to do whatever is necessary.'

*Anthony Robbins*

Quality questions create a quality life. Successful people ask better questions, and as a result, they get better answers.

Success in life is the result of good judgment. Good judgment is usually the result of experience. Experience is usually the result of bad judgement.

*Anthony Robbins*

What we can or cannot do, what we consider possible or impossible, is rarely a function of our true capability. It is more likely a function of our beliefs about who we are.

*Anthony Robbins*

The truth of the matter is that there's nothing you can't accomplish if:

*Anthony Robbins*

Beliefs have the power to create and the power to destroy. Human beings have the awesome ability to take any experience of their lives and create a meaning that disempowers them or one that can literally save their lives.

*Anthony Robbins*

I've continued to recognize the power individuals have to change virtually anything and everything in their lives in an instant. I've learned that the resources we need to turn our dreams into reality are within us, merely waiting for the day when we decide to wake up and claim our birthright.

*Anthony Robbins*

We are the only beings on the planet who lead such rich internal lives that it's not the events that matter most to us, but rather, it's how we interpret those events that will determine how we think about ourselves and how we will act in the future.

*Anthony Robbins*

You see, it's never the environment; it's never the events of our lives, but the meaning we attach to the events -- how we interpret them -- that shapes who we are today and who we'll become tomorrow.

*Anthony Robbins*

It's not the events of our lives that shape us, but our beliefs as to what those events mean.

*Anthony Robbins*

I believe life is constantly testing us for our level of commitment, and life's greatest rewards are reserved for those who demonstrate a never-ending commitment to act until they achieve. This level of resolve can move mountains, but it must be constant and consistent. As simplistic as this may sound, it is still the common denominator separating those who live their dreams from those who live in regret.

*Anthony Robbins*

One reason so few of us achieve what we truly want is that we never direct our focus; we never concentrate our power. Most people dabble their way through life, never deciding to master anything in particular.

*Anthony Robbins*

If you do what you've always done, you'll get what you've always gotten.

*Anthony Robbins*

Take control of your consistent emotions and begin to consciously and deliberately reshape your daily experience of life.

*Anthony Robbins*

You are now at a crossroads. This is your opportunity to make the most important decision you will ever make. Forget your past. Who are you now? Who have you decided you really are now? Don't think about who you have been. Who are you now? Who have you decided to become? Make this decision consciously. Make it carefully. Make it powerfully.

*Anthony Robbins*

All personal breakthroughs being with a change in beliefs. So how do we change? The most effective way is to get your brain to associate massive pain to the old belief. You must feel deep in your gut that not only has this belief cost you pain in the past, but it's costing you in the present and, ultimately, can only bring you pain in the future. Then you must associate tremendous pleasure to the idea of adopting a new, empowering belief.

*Anthony Robbins*

It is in your moments of decision that your destiny is shaped.

*Anthony Robbins*

It's not what's happening to you now or what has happened in your past that determines who you become. Rather, it's your decisions about what to focus on, what things mean to you, and what you're going to do about them that will determine your ultimate destiny.

*Anthony Robbins*

More than anything else, I believe it's our decisions, not the conditions of our lives, that determine our destiny.

*Anthony Robbins*

The most important thing you can do to achieve your goals is to make sure that as soon as you set them, you immediately begin to create momentum. The most important rules that I ever adopted to help me in achieving my goals were those I learned from a very successful man who taught me to first write down the goal, and then to never leave the site of setting a goal without first taking some form of positive action toward its attainment.

*Anthony Robbins*

You see, in life, lots of people know what to do, but few people actually do what they know. Knowing is not enough! You must take action.

*Anthony Robbins*

Your life changes the moment you make a new, congruent, and committed decision.

*Anthony Robbins*

Goals are a means to an end, not the ultimate purpose of our lives. They are simply a tool to concentrate our focus and move us in a direction. The only reason we really pursue goals is to cause ourselves to expand and grow. Achieving goals by themselves will never make us happy in the long term; it's who you become, as you overcome the obstacles necessary to achieve your goals, that can give you the deepest and most long-lasting sense of fulfillment.

*Anthony Robbins*

You clearly decide what it is that you're absolutely committed to achieving,

1. You're willing to take massive action,
2. You notice what's working or not, and
3. You continue to change your approach until you achieve what you want, using whatever life gives you along the way.

*Anthony Robbins*

We will act consistently with our view of who we truly are, whether that view is accurate or not.

*Anthony Robbins*

If you can't, you must. If you must, you can.

*Anthony Robbins*

Any time you sincerely want to make a change, the first thing you must do is to raise your standards. When people ask me what really changed my life eight years ago, I tell them that absolutely the most important thing was changing what I demanded of myself. I wrote down all the things I would no longer accept in my life, all the things I would no longer tolerate, and all the things that I aspired to becoming.

*Anthony Robbins*

# Stephen Covey

Between stimulus and response, one has the freedom to choose.

*Dr. Stephen Covey*

Don't argue for other people's weaknesses. Don't argue for your own. When you make a mistake, admit it, correct it, and learn from it--immediately.

*Dr. Stephen Covey*

Every human has four endowments- self awareness, conscience, independent will and creative imagination. These give us the ultimate human freedom... The power to choose, to respond, to change.

*Dr. Stephen Covey*

Happiness can be defined, in part at least, as the fruit of the desire and ability to sacrifice what we want now for what we want eventually.

*Dr. Stephen Covey*

If you're proactive, you don't have to wait for circumstances or other people to create perspective expanding experiences. You can consciously create your own.

*Dr. Stephen Covey*

Live out of your imagination, not your history.

*Dr. Stephen Covey*

Many people seem to think that success in one area can compensate for failure in other areas. But can it really?...True effectiveness requires balance.

*Dr. Stephen Covey*

Our character is basically a composite of our habits. Because they are consistent, often unconscious patterns, they constantly, daily, express our character.

*Dr. Stephen Covey*

Without involvement, there is no commitment. Mark it down, asterisk it, circle it, underline it. No involvement, no commitment.

*Dr. Stephen Covey*

Management works in the system. Leadership works on the system.

*Dr. Stephen Covey*

Effective people are not problem-minded; they're opportunity minded. They feed opportunities and starve problems.

*Dr. Stephen Covey*

One of the best ways to educate our hearts is to look at our interaction with other people, because our relationships with others are fundamentally a reflection of our relationship with ourselves.

*Dr. Stephen Covey*

Begin with the end in mind.

*Dr. Stephen Covey*

Paradigms are powerful because they create the lens through which we see the world.

*Dr. Stephen Covey*

Each of us tends to think we see things as they are, that we are objective. But this is not the case. We see the world, not as it is, but as we are - or as we are conditioned to see it.

*Dr. Stephen Covey*

# Brian Tracy

Disciplining yourself to do what you know is right and important, although difficult, is the highroad to pride, self-esteem, and personal satisfaction.

*Brian Tracy*

I've found that luck is quite predictable. If you want more luck, take more chances. Be more active. Show up more often.

*Brian Tracy*

All successful people men and women are big dreamers. They imagine what their future could be, ideal in every respect, and then they work every day toward their distant vision, that goal or purpose.

*Brian Tracy*

If you wish to achieve worthwhile things in your personal and career life, you must become a worthwhile person in your own self-development.

*Brian Tracy*

Just as your car runs more smoothly and requires less energy to go faster and farther when the wheels are in perfect alignment, you perform better when your thoughts, feelings, emotions, goals, and values are in balance.

*Brian Tracy*

Look for the good in every person and every situation. You'll almost always find it.

*Brian Tracy*

Develop an attitude of gratitude, and give thanks for everything that happens to you, knowing that every step forward is a step toward achieving something bigger and better than your current situation.

*Brian Tracy*

Never complain, never explain. Resist the temptation to defend yourself or make excuses.

*Brian Tracy*

Every minute you spend in planning saves 10 minutes in execution; this gives you a 1,000 percent Return on Energy!

*Brian Tracy*

Develop the winning edge; small differences in your performance can lead to large differences in your results.

*Brian Tracy*

Excellence is not a destination; it is a continuous journey that never ends.

*Brian Tracy*

Everything you do is triggered by an emotion of either desire or fear.

*Brian Tracy*

Successful people are always looking for opportunities to help others. Unsuccessful people are always asking, "What's in it for me?"

*Brian Tracy*

The act of taking the first step is what separates the winners from the losers.

*Brian Tracy*

If you envy successful people, you create a negative force field of attraction that repels you from ever doing the things that you need to do to be successful. If you admire successful people, you create a positive force field of attraction that draws you toward becoming more and more like the kinds of people that you want to be like.

*Brian Tracy*

Imagine no limitations; decide what's right and desirable before you decide what's possible.

*Brian Tracy*

No one lives long enough to learn everything they need to learn starting from scratch. To be successful, we absolutely, positively have to find people who have already paid the price to learn the things that we need to learn to achieve our goals.

*Brian Tracy*

Your biggest opportunity probably lies under your own feet, in your current job, industry, education, experience or interests.

*Brian Tracy*

The only real limitation on your abilities is the level of your desires. If you want it badly enough, there are no limits on what you can achieve.

*Brian Tracy*

The more you seek security, the less of it you have. But the more you seek opportunity, the more likely it is that you will achieve the security that you desire.

*Brian Tracy*

A clear vision, backed by definite plans, gives you a tremendous feeling confidence and personal power.

*Brian Tracy*

Always choose the future over the past. What do we do now?

*Brian Tracy*

Optimism is the one quality more associated with success and happiness than any other.

*Brian Tracy*

Today the greatest single source of wealth is between your ears.

*Brian Tracy*

The way you give your name to others is a measure of how much you like and respect yourself.

*Brian Tracy*

The ability to discipline yourself to delay gratification in the short term in order to enjoy greater rewards in the long term, is the indispensable prerequisite for success.

*Brian Tracy*

It doesn't matter where you are coming from. All that matters is where you are going.

*Brian Tracy*

Disciplining yourself to do what you know is right and important, although difficult, is the highroad to pride, self-esteem, and personal satisfaction.

*Brian Tracy*

Whatever you believe with feeling becomes your reality.

*Brian Tracy*

You cannot control what happens to you, but you can control your attitude toward what happens to you, and in that, you will be mastering change rather than allowing it to master you.

*Brian Tracy*

The more credit you give away, the more will come back to you. The more you help others, the more they will want to help you.

*Brian Tracy*

Success equals goals; all else is commentary.

*Brian Tracy*

Your decision to be, have and do something out of ordinary entails facing difficulties that are out of the ordinary as well. Sometimes your greatest asset is simply your ability to stay with it longer than anyone else.

*Brian Tracy*

Communication is a skill that you can learn. It's like riding a bicycle or typing. If you're willing to work at it, you can rapidly improve the quality of very part of your life.

*Brian Tracy*

# Jim Rohn

Failure is not a single, cataclysmic event. You don't fail overnight. Instead, failure is a few errors in judgment, repeated every day.

*Jim Rohn*

Learn to help people with more than just their jobs: help them with their lives.

*Jim Rohn*

Motivation alone is not enough. If you have an idiot and you motivate him, now you have a motivated idiot.

*Jim Rohn*

Success is 20% skills and 80% strategy. You might know how to read, but more importantly, what's your plan to read?

*Jim Rohn*

Success is not so much what we have as it is what we are.

*Jim Rohn*

Success is not to be pursued; it is to be attracted by the person we become.

*Jim Rohn*

The best motivation is self-motivation. The guy says, "I wish someone would come by and turn me on." What if they don't show up? You've got to have a better plan for your life.

*Jim Rohn*

Asking is the beginning of receiving. Make sure you don't go to the ocean with a teaspoon. At least take a bucket so the kids won't laugh at you.

*Jim Rohn*

Either you run the day or the day runs you.

*Jim Rohn*

Formal education will make you a living; self-education will make you a fortune.

*Jim Rohn*

You must constantly ask yourself these questions: Who am I around? What are they doing to me? What have they got me reading? What have they got me saying? Where do they have me going? What do they have me thinking? And most important, what do they have me becoming? Then ask yourself the big question: Is that okay? Your life does not get better by chance, it gets better by change.

*Jim Rohn*

Attitude is your acceptance of the natural laws, or your rejection of the natural laws.

*Jim Rohn*

If you don't like how things are, change it! You're not a tree.

*Jim Rohn*

Success is doing ordinary things extraordinarily well.

*Jim Rohn*

The difficulties you meet will resolve themselves as you advance. Proceed, and light will dawn, and shine with increasing clearness on your path.

*Jim Rohn*

The major value in life is not what you get. The major value in life is what you become.

*Jim Rohn*

To solve any problem, here are three questions to ask yourself: First, what could I do? Second, what could I read? And third, who could I ask?

*Jim Rohn*

You must take personal responsibility. You cannot change the circumstances, the seasons, or the wind, but you can change yourself. That is something you have charge of.

*Jim Rohn*

# Mark Victor Hansen

Now is the only time there is. Make your now wow, your minutes miracles, and your days pay. Your life will have been magnificently lived and invested, and when you die you will have made a difference.

*Mark Victor Hansen*

End your day by privately looking directly into your eyes in the mirror and saying, 'I love you!' Do this for thirty days and watch how you transform.

*Mark Victor Hansen*

Your belief determines your action and your action determines your results, but first you have to believe.

*Mark Victor Hansen*

The more goals you set - the more goals you get.

*Mark Victor Hansen*

Predetermine the objectives you want to accomplish. Think big, act big and set out to accomplish big results.

*Mark Victor Hansen*

With vision, every person, organization and country can flourish. The Bible says, 'Without vision we perish.'

*Mark Victor Hansen*

Big goals get big results. No goals gets no results or somebody else's results. Every liability is just an asset in hiding.

*Mark Victor Hansen*

Focused mind power is one of the strongest forces on earth.

*Mark Victor Hansen*

Predetermine the objectives you want to accomplish. Think big, act big and set out to accomplish big results.

*Mark Victor Hansen*

Set too many goals and keep adding more goals. Goals have a tendency to be realized all at once.

*Mark Victor Hansen*

The majority of people meet with failure because they lack the persistence to create new plans to take the place of failed plans.

*Mark Victor Hansen*

Thoughts and ideas are the source of all wealth, success, material gain, all great discoveries, inventions and achievements.

*Mark Victor Hansen*

You don't become enormously successful without encountering some really interesting problems.

*Mark Victor Hansen*

Goals are new, forward-moving objectives. They magnetize you towards them. It's time to stop tiptoeing around the pool and jump into the deep end, head first. It's time to think big, want more and achieve it all!

*Mark Victor Hansen*

*P/S : If you still did not read Robert G Allen & Mark Victor Hansen famous **One Minute Millionaire**, they are actually offering it for FREE (I have bought it the similar way, through internet). # Dale Carnegie

Be more concerned with your character than with your reputation. Your character is what you really are while your reputation is merely what others think you are.

*Dale Carnegie*

Do the hard jobs first. The easy jobs will take care of themselves.

*Dale Carnegie*

Don't be afraid to give your best to what seemingly are small jobs. Every time you conquer one it makes you that much stronger. If you do the little jobs well, the big ones will tend to take care of themselves.

*Dale Carnegie*

People rarely succeed unless they have fun in what they are doing.

*Dale Carnegie*

Today is life-the only life you are sure of. Make the most of today. Get interested in something. Shake yourself awake. Develop a hobby. Let the winds of enthusiasm sweep through you. Live today with gusto.

*Dale Carnegie*

Develop success from failures. Discouragement and failure are two of the surest stepping stones to success.

*Dale Carnegie*

Do the thing you fear to do and keep on doing it... that is the quickest and surest way ever yet discovered to conquer fear.

*Dale Carnegie*

If you believe in what you are doing, then let nothing hold you up in your work. Much of the best work of the world has been done against seeming impossibilities. The thing is to get the work done.

*Dale Carnegie*

It isn't what you have, or who you are, or where you are, or what you are doing that makes you happy or unhappy. It is what you think about.

*Dale Carnegie*

Most of the important things in the world have been accomplished by people who have kept on trying when there seemed to be no hope at all.

*Dale Carnegie*

Remember happiness doesn't depend upon who you are or what you have; it depends solely on what you think.

*Dale Carnegie*

Success is getting what you want. Happiness is wanting what you get.

*Dale Carnegie*

Take a chance! All life is a chance. The man who goes farthest is generally the one who is willing to do and dare.

*Dale Carnegie*

The successful man will profit from his mistakes and try again in a different way.

*Dale Carnegie*

# NAPOLEON HILL

The best job goes to the person who can get it done without passing the buck or coming back with excuses.

*Napoleon Hill*

Action is the real measure of intelligence.

*Napoleon Hill*

Do it now! can affect every phase of your life. It can help you do the things you should do but don't feel like doing. It can keep you from procrastinating when an unpleasant duty faces you. But it can also help you do those things that you want to do. It helps you seize those precious moments that, if lost, may never be retrieved.

*Napoleon Hill*

Do not wait; the time will never be "just right." Start where you stand, and work with whatever tools you may have at your command, and better tools will be found as you go along.

*Napoleon Hill*

The world has the habit of making room for the man whose actions show that he knows where he is going.

*Napoleon Hill*

Every adversity, every failure, every heartache carries with it the seed of an equal or greater benefit.

*Napoleon Hill*

What ever the mind of man can conceive and believe, it can achieve.

*Napoleon Hill*

The jack-of-all-trades seldom is good at any. Concentrate all of your efforts on one definite chief aim.

*Napoleon Hill*

The strongest oak of the forest is not the one that is protected from the storm and hidden from the sun. It's the one that stands in the open where it is compelled to struggle for its existence against the winds and rains and the scorching sun.

Effort only fully releases its reward after a person refuses to quit.

*Napoleon Hill*

Who said it could not be done? And tell me what great victories does he have to his credit which qualifies him to judge what can and can't be accomplished.

*Napoleon Hill*

Desire is the starting point of all achievement, not a hope, not a wish, but a keen pulsating desire which transcends everything.

*Napoleon Hill*

Cherish your visions and your dreams as they are the children of your soul; the blueprints of your ultimate achievements.

*Napoleon Hill*

When defeat comes, accept it as a signal that your plans are not sound, rebuild those plans, and set sail once more toward your coveted goal.

*Napoleon Hill*

Hold a picture of yourself long and steadily enough in your mind's eye, and you will be drawn toward it.

If you do not conquer self, you will be conquered by self.

The ladder of success is never crowded at the top.

*Napoleon Hill*

Until you have learned to be tolerant with those who do not always agree with you; until you have cultivated the habit of saying some kind word of those whom you do not admire; until you have formed the habit of looking for the good instead of the bad there is in others, you will be neither successful nor happy.

*Napoleon Hill*

You must get involved to have an impact. No one is impressed with the won-lost record of the referee.

*Napoleon Hill*

The battle is all over except the "shouting" when one knows what is wanted and has made up his mind to get it, whatever the price may be.

*Napoleon Hill*

There is one quality which one must possess to win, and that is definiteness of purpose, the knowledge of what one wants, and a burning desire to possess it.

*Napoleon Hill*

Every person who wins in any undertaking must be willing to cut all sources of retreat. Only by doing so can one be sure of maintaining that state of mind known as a burning desire to win -- essential to success.

It is literally true that you can succeed best and quickest by helping others to succeed.

*Napoleon Hill*

# Robert T. Kiyosaki

*Please take note, Robert Kiyosaki's quotes are base from his Rich Dad book series. If you have not read his books yet, you may not catch some of his meanings behind the quotes. I would extremely advise you to read Rich Dad Poor Dad.. I have personally met up with Robert last time and learn a lot from his books. By the way, you can get his book at bookstores near your place.*

Your most expensive advice is the free advice you receive from your financially struggling friends or relatives.

*Robert Kiyosaki*

Average investors are on the outside trying to look into the inside of the company or property they are investing in.

*Robert Kiyosaki*

It's the investor who is risky, not the investment.

*Robert Kiyosaki*

The idea of working all your life, saving, and putting money into a retirement account is a very slow plan.

*Robert Kiyosaki*

If you don't first handle fear and desire, and you get rich, you'll only be a high-pay slave.

*Robert Kiyosaki*

To gain more abundance a person needs more skills and needs to be more creative and cooperative.

*Robert Kiyosaki*

A business with a defined mission, a determined leader, and a qualified and unified team begins to take shape as the sections of the B-I Triangle come together. This is when the B-I Triangle becomes three-dimensional and turns into a tetrahedron.

*Robert Kiyosaki*

One of the reasons I do not need a job or a paycheck is because rich dad trained me to make money from nothing.

As you increase the number of investor controls you possess, you continue to reduce your risk in the investment.

*Robert Kiyosaki*

The unique ability to take decisive action while maintaining focus on the ultimate mission is what defines a true leader.

*Robert Kiyosaki*

The more simple you can make this subject (investing), the richer you can become while reducing risk. But the challenge for most people is to invest the time.

*Robert Kiyosaki*

# Mark Joyner

Okay, here is my own words of who is Mark Joyner. He is the ex CEO of Aesop.com and a true internet marketing genius in history. In only couple of months, he have sold his latest product, Mark Joyner Farewell Package that had grossed sales revenue worth millions. I had never seen with my own eyes of any ordinary internet marketer that have pulled such amazing results before.

Apart than that, he had authored and published the book, MindControlMarketing.com which is worth reading. This is NOT a typical marketing book, it received testimonials from well known people such as Joe Vitale, Brian Tracy and Jay Conrad Levinson.

However, he had quit internet marketing business and move to his latest project, called the 'free agent path'. You can find out how free agent path can benefit you at <http://www.thefreeagentpath.com/patriccl>

And lastly, I had the privileged for working with this wonderful man. :)

If there is a word for Mark, he would be a very humble and kind hearted person when you get to know this man in person.

## **The Craziest Internet Business Idea in History**

by Mark Joyner

So, you've got a great Internet business idea. Yeah, I'm talking to you. You know who you are. You have this great idea that you love to brag about. You tell all of your friends how it's going to make you a millionaire.

And to you, oh great generator of ideas, I say:

So what!

I know (literally) hundreds of people that come up with million dollar ideas on a daily basis. I can count on my hands, however, the number of those people that have actually achieved a respectable level of success with those ideas.

What about you? Are you sitting there feeling good about yourself with that great idea of yours or are you actually doing

something about it?

Now, before you answer that question, be honest with yourself about what you want. Some people, it seems, are satisfied just having people pat them on the back for having such a great idea.

What about you? Is the pat on the back enough? If so, stop reading right now. I'm just going to waste your time if that is the case.

However, if you're one of the elite few that genuinely has what it takes to turn that idea into money, read on.

### **--- Point of No Return Starts Here ---**

Still with me?

OK, then. Let's get started.

1. Pick one idea.

Decide right now that you want to turn this idea into money and try not to get bogged down in other ideas.

You're going to come up with hundreds of other ideas before you see this one to completion. Resist the temptation to treat all of them equally. You will be tempted to pursue every single idea you have. This is the kiss of death. You need to narrow your focus. That's the key to success.

2. Stop rationalizing.

Somewhere along the way you're going to say to yourself: "This idea isn't working because it's not the best idea. I should have picked another."

Rubbish! This is the lazy part of your mind trying to give you an excuse for quitting.

Don't quit. You don't know that the "other idea" is better. You *\*can't\** know this.

Drive on.

3. It's the marketing, stupid.

You should spend more of your time marketing than on any

other task. In the course of running your business, it's easy to get caught up in a million idiotic things.

For example: "Which color paint do you think would look best in the ladies room? Pink or mauve?"

Who cares! Make little decisions quickly, or pass them to someone else.

If you are not spending 90% of your working day on marketing, something is wrong.

Fix it!

Now, you can say to yourself: "Of course he's right -- I don't need Mark Joyner to tell me all these things" and then forget everything I've said.

Or...

Or, you can get started right now. I think you know which path leads to wealth and success. The question is, do you really want it?

## How to Start Making Money from the Internet!

By Patric Chan

<http://www.esuccessmastery.com>

Many people are making money from the internet, especially those from United States.

If you heard Robert G Allen's name before, he did mentioned how powerful is the internet to make money in this age. He have personally make US\$ 220 millions from information business alone!

I highly recommend you to read his latest book, One Minute Millionaire book. You can get the book your local bookstore, but I bought it from the internet. Why?

Well, it's 1) cheaper, 2) I get better quality paper book (from United States), 3) convenience and 4)I get free bonuses that worth tens of US \$ dollars.

Internet had make communications became very easy and also, making the world became 'smaller'. If you are still in an offline world, think again how can you participate in the internet or be wiped off in just few years time.

I prefer to buy it online as I get more benefits (as mentioned above) compare to our local book store here.

You can now buy the book online at a **special promotion price** and **free bonuses** ( Multiple Streams of Income CD worth \$11.95 which you don't get for free at our local book store!) like me at :

<http://www.esuccessmastery.com/omm1.htm>

First of all, you need to know how you want to earned money from the internet. There are many ways, different types of internet income have different ways of promoting it, but it is still the same way to promote it. Sounds ironic, right?:-)

Let's get started.

Listed are some ways to earn money from the net that I would recommend:

- **Internet Jobs**

Part/full time internet job such as typing, data entry, web designing, copywriting and etc is available. You can actually have a job and work at home rather than working in a company. Of course, there always the pros and cons.

Some companies could not afford to hire a permanent staff to do their project basis work, therefore, in order to minimize the cost, they seek outsource expertise. Similarly, if you create a product, you may want to hire a copywriter for your webpage and etc.

In this type of work, it is very much an active income, because you only earn when you complete the work. You actually trade your time to complete the work. Below are a few websites that you can find work :

<http://www.workathomeclassifieds.com>

<http://www.workathomecareers.com/index1a.html>

<http://www.work-at-home-dot.com>

<http://www.elance.com>

I had personally worked as a freelance customer support for established internet marketer before. As long as you are good at your area, you have no problem of selling your own expertise. I don't make millions by replying customer's emails, but it's a good way of active income as I choose my own time to do it and there is no pressure.

I was also hired by successful internet marketers or authors to help them with their stuff such as internet copy writing, handling emails and etc.

- **Selling Products Online**

You may sell tangible or intangible products, depending on your interest or business. I prefer selling intangible products, especially information products such as ebooks or audios which is digitalized.

Everybody is hungry for information. Otherwise, this generation won't be called as the Information Age. Typically, I read at least a book in a week. I surf the internet at least 3 hours a day to search for information. Everybody is crazed for information.

Selling intangible product gives me the advantage to automate most of my transaction and do not require any inventory. No inventory means no cost. Just a small set up fees to get things rolling.

If you are a beginner, I would suggest you to start selling other people's products first. You can buy resell rights and earn 100% on top of the sale. However, if you are not tech-savvy yet (I am not as well until today), you can join affiliate program to sell other people's product. It is best to create your own product, but to my opinion, if you do not have the expertise or time, skip it.

It just required too much effort, where you can actually get a very good resell product below US \$ 200.00 easily nowadays.

If you are interested to create your own information product without hassle, I will recommend to you a friend of mine, his name is Jeff Smith. Jeff is a full time internet marketer who helps ordinary people and experts to create information products.

The **Ultimate Information Entrepreneur's Idea GuideBook** will be the best resource for you to create your own information product.

Visit <http://www.esuccessmastery.com/jeff.htm> if you want to start creating your own profitable information products now!!

- **Ebay/Auctions website**

Do you know Ebay received millions of internet visitors a month? No, sorry, correction : it's actually 1 billion clicks a month. Phew!!

If you do not know what does that means, it means instant money making! Imagine if you sell a product in Ebay, only 0.01% visitor view your ad's auction, you get hundreds of thousand visitors!!

Do you think if 100,000 visitors see your ad/auction, will you get a sale? If you know what to sell and how to write your ad, you bet!!

A good thing about Ebay is that the visitors that view your product is a targeted visitor because they are searching for your products.

Ebay is only an example, at this moment, there are easily 50 auction websites in the internet now.

But if you wanna make money, go for the big auction site like Ebay, where you prospects are from around the world.

- **Internet Multi Level Marketing**

There are many Multi Level Marketing (mlm) companies doing their business online nowadays. Some of them sell products and some sell information membership For this method of making money from the internet, you have to be very careful as there are now too many scams.

Because internet have allowed a lot of leverage, some unethical people have use it in a wrong way and create a lot of skepticism in this industry.

I'm not saying online mlm is bad, but you should make sure you do a lot of home work to check about the company's background first.

I would not recommend any here, as I do not wish to be bias. However, I personally involve in internet mlm and it provides superb leverage.

If you are seriously wanted to know which latest mlm I am involve in, you can send me an email at [mlm@awesomelearning.com](mailto:mlm@awesomelearning.com) and you will receive my auto reply. I do not check this email address.

- **Internet Affiliates Program**

Most companies doing on line business such as online dating services, selling books (Amazon.com), selling ebooks and etc have an associate program for you to join where you can earn money by marketing it. This is called the affiliate program. How does affiliate program work is this; you promote for them and they pay you when they get sales from you.

Simple idea, right? Everyone wins. Everyone is happy.

You can be affiliated to many online businesses from the websites below. It is FREE to sign up.

<http://zzz.clickbank.net/r/?patricchan>  
<http://www.cj.com>

Affiliates program itself is a whole big story to explain, which I cannot complete everything here. If you really wants to earn money from affiliate program, I would recommend you to read Ken Envoy's 'The Affiliate Masters Course'. Download your free copy here, <http://www.ebooksnbytes.com/Aff-Masters.zip> .

## Owning a Website?

You probably will ask this question, do I need a website? If you are serious into internet marketing, YES!!!

A whole lots of other stuff as well! You need web hosting, autoresponder, web templates, tracking software and etc. Another internet marketing coach that I knew personally some time ago was Marty Fiegl. He is a very successful internet marketer. I have prepared for you an internet marketing basic report by Marty Fiegl so that you can learn all about it.

It will guide you how to set up website and do the promotion to get sales for your website.

# **A Little Inspirational Story To Share.....**

## **A Magic Lesson To Success**

There was some time ago, in a city, there lived a couple who have a comfortable life. Both of them are living happily married. They have a secure job, own a house, car and those common needs you can imagined.

Basically, this couple does not need to worry much about their financial or relationship needs. But after living the same life style for years, they had realized that their life seems to be so routine!It is so predictable, that it seems like something is missing for both of them.

Everyday, they wake up in the morning, go to work, come back from work, go home, eat dinner (sometimes they have to dine outside) watch tv, wash car and go back to sleep. The normal, typical daily stuff. With the money they earned everyday, it would not be possible for them to go for a vacation in overseas a lot, go safaris in Africa or take flying lessons. You know, the lifestyle of the richer group where spending money is not a main concern.

What is missing!?! Their passion in life.

This is because they have not sought the passion in their life and with their current financial situation, this is the type of enjoyment they can afford to spend on.

So one day, the wife voiced out that she had enough; enough is enough of this meaningless life, they need to find their passion in life, to enjoy life to the fullest and be better off in financial situation. They know they can achieve more, but do not know why they are not achieving more. Achieving does not mean that they have to be millionaires, but in every other expect of life. The husband agreed, and so they set off to find a better lifestyle and seek the passion for their life.

And amazingly, the husband was told by a successful friend of his, that there is a magical success guru living in a far, far away land, on top of the highest mountain where there is a cave. The guru lives in that cave.

The husband was excited with this news, and so after much discussion with his wife, they have made a decision. They had made a decision to seek advice from the guru for the secrets of success. They took their company leaves, save some money for traveling and set they go.

After months of searching high and low with their determination to seek the answer, finally they found the mountain where the guru lives.

Excited as they are, they make their climbs to the peak of the mountain. It was very hard and tedious, but it is worth the effort. Finally, they were at the peak. Overseeing the view of the world from top of the mountain, they felt so confident and peace of mind. Now, their task is to find the guru. The hard part is:

Where could he be? They think.

Suddenly, they saw an old man, sitting at the end of the mountain rock. It seems very dangerous to sit there, because anyone can fall off anytime down the mountain and break all the bones. Of course, anyone who fell off will probably end up dead with broken bones.

So, the wife whispered to the guru, 'Excuse me, old man, are you the magical success guru that helps people to be successful?'

The guru seemed not to be hearing her whisper. He was still sitting quietly at the end of the mountain rock without any movement.

The wife whispered again. Then, the old man turned around and stood up at the end of the mountain rock. This is even more dangerous now, because anyone can lose balance and fall off!

'Be careful, o'wise guru! You can fall down from the mountain rock if you stand so near at the end!' they warned.

But the guru simply ignored what they said. In fact, he replied, 'If you want to speak with me and learn from me, you have to come closer, come stand beside me at the end of the mountain rock, my students-to-be.'

No choice was given if they wanted to learn the secrets of success from the guru but to follow his instruction. With a lot of fear, they came close to the guru. Now, the Guru is standing in the middle and both of them were standing on the left and right side of the Guru. All 3 of them are facing outwards of the mountain, they are facing the down slope of the mountain over looking on top of the world. They can fall down the mountain at any time if they are not careful. The husband's and wife's heart were panting non stop.

At this moment they felt so different, a feeling they never felt before, peace of mind and yet full of anxiety. Looking down the land, they felt really confident. And also a little bit afraid of falling off. It will break their bones if they fall down the mountain.

The husband was thinking, 'Now what?'

So, he asked the guru the one million dollar question,

'What is the secret of success, o'wise guru?'

The guru just smiled at them and replied, 'Look at the world beyond below, from here.'

Following the instruction, both of them do as instructed, looking at the world from the top of the mountain. They can see almost see everything from the peak of the mountain.

Suddenly, the guru pushed them off the mountain peak!! Unbelievable!

(Sad conclusion??)

Both of them fell.

When they fell, with so much fear of death, suddenly, they realized that they can fly! And they fly..... because they have forgotten that they can fly all this while.....

*Patric Chan*

-----The End-----

Please take some time to digest the meaningful story above,  
and think what lessons is hidden behind the story.

Some people can 'fly' but they had forgotten how to 'fly'.  
So they forgot.

Some people completely do not know they can 'fly'.  
So they never learned.

Some people had 'flew' before, but forgot how to.  
So they never remembered.

Some people know they can fly, but never try because they  
are surrounded with F-E-A-R. So they quit.

Some people wanted to see others 'fly' first before they 'fly'.  
So they waited.

Some people waiting for a mentor to teach them how to fly.  
So they waited.

Some people 'flew' before and fell down, so they claimed  
that 'flying' is dangerous and useless.  
So they whined and quitted.

**But**, some people are 'flying' everyday, looking from below the  
sky, overseeing everyone who is not 'flying' just because they  
had took a step to fly.....

I had taken my 'flying' lessons and fell many times.  
But now, I had discovered my wings again.

Have you started 'flying' yet?

If you find this ebook inspirational and have help you in  
any ways, I would appreciate very much if you can send  
a testimonial of what you feel about this book to me at  
mailto:[patric@esuccessmastery.com](mailto:patric@esuccessmastery.com) In return, I would like  
to offer my sincere opinions and advise if you have any  
questions you are seeking in success. I may not reply you  
instantly due to many emails I received, but I will reply you.

**Put your ideas and knowledge to work now, this very instant and  
take massive action to achieve success!!**

- **Perform tedious web design tasks** such as setting up just the right table alignment with just a few simple keystrokes
- **Write scripts and software code even if you don't know how** by inserting code templates that you receive from a programmer or download from the Internet
- **Remember all of your affiliate links and URLs** so that you have them at your fingertips, so that next time when you want to tell someone about a web site you can just hit a few keystrokes and insert the right information
- **Automatically type a signature for you on message boards and emails** and get some free advertising in around the clock

- **Instantly insert phone numbers, addresses, and email addresses** into documents and emails by just typing a pre-defined "nickname" or "alias" (for example, type "john's email" and BizAutomator will type "john@hotmail.com" into whatever document you're typing in)

# 'How a new kind of inspirational book that I read at 3.00am had improved my inspiration for success in only 3 hours'

and it works for everyone including yo u.....

## Come Back To Life

"Delightful book - worth reading and then referring to over and over again. A real help to motivate yourself for success."

"It's one of those rare life-changing books that you know you need to pass on to as many people as possible. It touches people's lives."

Recently, I had been spending money and time promoting a new online business. Everything was in place to be launched.

But suddenly, when I entered my website URL address, the page just wouldn't load!

Imagine how worried I was!! I know I was going to lose money - and integrity - when my visitors found out about this. And the worst part was, I had requested top internet marketers to recommend their customers to visit my website in 8 hours from now. It was 2 o'clock in the morning and I didn't know what to do.

I was very worried.

Since I couldn't do anything much, I thought of checking my emails.

Normally, I will receive many emails from my subscribers and it always cheers me up. :) That day, I received an email from Carl Munson. Here is what he wrote :

*Hi Patric,*

*This is Carl Munson, author of Come Back To Life. I have been a subscriber of Motivational Success Resources for some time now, and I would like to thank you for the work you have done.*

*Blah, blah, blah.....*

*I would like to give you a complimentary copy of my ebook, Come Back To Life. It is not a free ebook, but I would really like you to have it. The price will increase soon to \$19.95.*

*Cheers,  
Carl Munson*

Well, to tell you the truth, I can't seriously be bothered with how good Carl's book is! All I was concerned about was how to find the solution for my website problem that day. My assumption was that, **Come Back To Life** must be another of those inspirational book that you and me have read so many times already. Anyway, I wanted to know what the contents were, so I read the book.

WOW!! Am I in for a surprise!!

This ebook is not just another typical inspirational ebook. It's totally extraordinary! Here's the best bit I read that morning :
